

AL114: Analytical Chemistry Methods and Instrumental Technique

Training Description:

Knowledge of modern analytical instruments and techniques is necessary to solve any laboratory problem. The course provides basic and advanced analytical analysis methods and troubleshooting techniques of the most used instruments in an analytical laboratory.

In addition, it offers elegant tools for qualitative and quantitative data techniques with practice work on analysis software. The aim is to enrich and advance the skills and knowledge of participants to understand analytical chemistry technology.

Training Objectives:

By the end of the training, participants will be able to:

- ✓ Impart participants fundamental techniques of analytical chemistry
- ✓ Identify the application of analytical methods
- ✓ Understand the instruments' techniques
- ✓ Know how to judge the accuracy and precision of experimental data and how these judgments can be sharpened by the application of statistical methods
- ✓ Understand the tools and techniques used to achieve process analysis, qualitative methods, cause and effect diagrams and calibration graphs
- ✓ Be familiar with the latest analytical methods

Training Designed for:

This course is intended for Chemists, Lab Technicians, Chemical Engineers, Instrument Engineers and Lab Supervisors/Managers.

Training Requirements:

“Hand’s on practical sessions, equipment and software will be applied during the course if required and as per the client’s request.”

Contents can be adapted to your specific wishes. It is therefore possible to focus on specific modules of the training course as per client’s learning needs and objectives. Further, it should be forwarded to us a month prior to the course dates.

Training Program:

DAY ONE:

- ❖ Introduction to analytical technique
- ❖ Methods of analysis
- ❖ Basic laboratory technique: sample preparation, analytical measurement, fundamental concepts, chemical equation, acidity of solution, buffers
- ❖ Gravimetric methods of analysis
- ❖ Preparation of chemicals
- ❖ Acid-base titration methods

DAY TWO:

- ❖ Complex-formation titration methods

- ❖ Oxidation-reduction titration
- ❖ Precipitation titration methods
- ❖ Reference/indicator electrodes
- ❖ Potentiostatic coulometric
- ❖ Potential selectivity of electrolytic methods

DAY THREE:

- ❖ Manipulation methods: solid phase extraction and derivatization
- ❖ Chromatography technique
- ❖ Gas chromatography (inject system, column, detector types)
- ❖ High performance liquid chromatography: mobile phase, pumping system, sample inject system, column, detector types
- ❖ Other chromatography techniques
- ❖ Data management software

DAY FOUR:

- ❖ Analytical retention process
- ❖ Spectroscopy technique and molecules identifying
- ❖ Infrared absorption spectroscopy
- ❖ Nuclear magnetic resonance spectroscopy
- ❖ Mass spectroscopy
- ❖ UV/IR absorption spectroscopy

DAY FIVE:

- ❖ Raman spectroscopy
- ❖ X-Ray spectroscopy
- ❖ Electron spectroscopy
- ❖ Atomic absorption
- ❖ Instruments troubleshooting: column contamination, broad in the peak bandwidth, ghost peaks, system peak, contamination in the inlet filter, change solvent in mobile phase (HPLC), interferences in the AAS, detector contamination
- ❖ Quantitative methods: calibration methods, external and internal standards, outliers test, determination of analyte concentration, standard addition method, error in quantitative analysis, confidence limits, detection limit, repeatability, reproducibility and method validation
- ❖ Course Conclusion
- ❖ POST-ASSESSMENT and EVALUATION

Training Methodology:

“Hand’s on practical sessions, equipment and software will be applied during the course if required and as per the client’s request.”

Contents can be adapted to your specific wishes. It is therefore possible to focus on specific modules of the training course as per client’s learning needs and objectives. Further, it should be forwarded to us a month prior to the course dates.

Training Certificate(s):

CMCT Internationally recognized certificate(s) will be issued to each participant who completed the course.

Training Fees:

TBA as per the course location - This rate includes participant's manual, hand-outs, buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

Note: The 5% VAT (Value Added Tax), will be effective starting 01st of January 2018 as per the new regulation from the UAE Government. The VAT applies for all quotation both for local and abroad.

Training Timings:

Daily Timings:

07:45 - 08:00	Morning Coffee / Tea
08:00 - 10:00	First Session
10:00 - 10:20	Recess (Coffee/Tea/Snacks)
10:20 - 12:20	Second Session
12:20 - 13:00	Recess (Prayer Break & Lunch)
13:00 - 14:00	Last Session
