

DE235-4D: Production Logging Interpretation in Techlog

Training Description & Objectives:

This training course teaches participants the tools and workflows in Techlog for Production Logs interpretation.

Techlog Production Logging workflow starts from raw data preparation, visualization and QC, through processing to Rate Calculation and interpretations. The output from Rate Calculation are used for calibration of reservoir models. The workflow ends with Well Performance Advisor method to help decide workover intervention. A final customizable report is generated at the end of the workflow.

This intensive training course covers the processing and interpretation of raw data from different types of Production Logging tools. You will learn the tools and techniques to understand the types and movement of fluids in and near the wellbore and the flow rate contribution from different zones.

Training Designed for:

This training course is intended for Production Logging Petrophysicist, Geologists, Log Interpreters and Reservoir Engineers.

Training Requirement:

“Hand’s on practical sessions, equipment and software will be applied during the course if required and as per the client’s request.”

Contents can be adapted to your specific wishes. It is therefore possible to focus on specific modules of the training course as per client’s learning needs and objectives. Further, it should be forwarded to us a month prior to the course dates.

Training Program:

FOUR DAYS:

- ❖ Introduction
- ❖ Data import Preparation
- ❖ Production Logs visualization and QC
- ❖ Data processing
- ❖ Production Logging interpretation
- ❖ Multi-sensor data interpretation
- ❖ Well Performance Advisor
- ❖ Reports
- ❖ Course Conclusion
- ❖ POST-ASSESSMENT and EVALUATION

Training Certificate(s):

CMCT Internationally recognized certificate(s) will be issued to each participant who completed the course.

Training Methodology:

This interactive training course includes the following training methodologies as a percentage of the total tuition hours:

- 30% Lectures, Concepts, Role Play
- 70% Workshops & Work Presentations, Techniques, Based on Case Studies & Practical Exercises, Gamification, Software & General Discussions
- Pre and Post Test

Training Fees:

TBA as per the course location - This rate includes participant's manual, hand-outs, buffet lunch, coffee/tea on arrival, morning & afternoon of each day.
