

HS011: Certificate in Applied HSE Management

Training Description:

In this five-day course, participants will learn how to develop and use an HSE management system to drive improvement and learning into your organization! This training course is about understanding and applying common HSE management systems in oil, gas and petrochemical and manufacturing industries. It includes a rich blend of knowledge development sessions, individual and team exercises, problem-solving, and sector case studies.

The training course may be taken either independently or in conjunction with our Applied Safety, Applied Health, and/or Applied Environment courses. This training course also provides practical learning for participants seeking professional accreditation through our Accredited H&S International Homebody Certificates such as IAOSHE (International Association for Health and Occupational Safety and the Environment).

Training Objectives:

By the end of the training, participants will be able to:

- ✓ Successfully apply the principle elements of an HSE management system aligned to the international standards ISO 14001 (environment) and OHSAS 18001 / ISO 45001 (occupational health and safety), and how to relate these to company management systems
- ✓ Explain responsibilities for HSE management and the characteristics of successful leadership and management styles
- ✓ Use key tools associated with HSE management including HazID, risk assessment, JHA, JSA, PTW, LOTO, and active (leading) and reactive (lagging) monitoring
- ✓ Shape and initiate improvement in the safety culture of their own organizations

Training Designed for:

This course is intended for all Functional Specialists seeking to improve their knowledge and application of HSE management systems, including Operations Supervisors, Engineers, Contract Managers, Project Managers, and all staff who have the responsibility for designing, implementing, or supporting HSE management. Some prior knowledge of HSE management related topics is desirable but not essential.

Training Requirement:

“Hand’s on practical sessions, equipment and software will be applied during the course if required and as per the client’s request.”

Contents can be adapted to your specific wishes. It is therefore possible to focus on specific modules of the training course as per client’s learning needs and objectives. Further, it should be forwarded to us a month prior to the course dates.
