IT099:
ISO/IEC 27001 Implementation

Training Description:

This ISO/IEC 27001 Lead Implementer training course enables participants to acquire the knowledge necessary to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an information security management system (ISMS).

Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare participants in implementing an information security management system (ISMS) based on ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement.

Training Objectives:

By the end of the training, participants will be able to:

- ✓ Explain the fundamental concepts and principles of an information security management system (ISMS) based on ISO/IEC 27001
- ✓ Interpret the ISO/IEC 27001 requirements for an ISMS from the perspective of an implementer
- ✓ Initiate and plan the implementation of an ISMS based on ISO/IEC 27001, by utilizing PECB's IMS2 Methodology and other best practices
- ✓ Support an organization in operating, maintaining, and continually improving an ISMS based on ISO/IEC 27001
- ✓ Prepare an organization to undergo a third-party certification audit

Training Designed for:

This course is intended for Managers or consultants involved in and/or concerned with the implementation of an information security management system in an organization; Project managers, consultants, or expert advisers seeking to master the implementation of an information security management system; or individuals responsible to maintain conformity with the ISMS requirements within an organization; Members of the ISMS team
