

RE033: Electricity Tariff for Renewable Energy Systems: Methodology & Regulations

Training Description:

This training course addresses the electricity tariff for renewable energy systems. Participants will learn the up-to-date regulations and methodology. The theoretical and practical parts of the training are analyzed and linked with the skills and competences required to be developed.

Training Designed for:

This course is intended for junior, middle and high-level staff from utilities, regulatory bodies, analysts, people in the infrastructure profession both developers, sponsors, lenders or as government counterparties. Course participants can be junior to senior staff with different levels of expertise.

Training Requirement:

“Hand’s on practical sessions, equipment and software will be applied during the course if required and as per the client’s request.”

Contents can be adapted to your specific wishes. It is therefore possible to focus on specific modules of the training course as per client’s learning needs and objectives. Further, it should be forwarded to us a month prior to the course dates.

Training Program:

FIVE DAYS:

- ❖ PRE-TEST
- ❖ Introduction
- ❖ Why renewable energy?
- ❖ Types of renewable energies
- ❖ Selecting the right type benchmark
- ❖ Benefits of renewable energy systems utilization
- ❖ Technical aspects of renewable energy systems
- ❖ Commercial aspects of renewable energy systems
- ❖ Acquisitions and Dispositions
- ❖ Renewable energy systems cost estimation
- ❖ Project Development
- ❖ Regulatory
- ❖ Renewables
- ❖ Tariff estimation for renewable energy systems
- ❖ Possible tariff structures for RES
- ❖ Regulatory aspects of RES
- ❖ Pioneers of RES and lessons learned
- ❖ Future trends of RES
- ❖ Course Conclusion
- ❖ POST-TEST and EVALUATION

Training Certificate(s):

CMCT Internationally recognized certificate(s) will be issued to each participant who completed the course.

Training Methodology:

This interactive training course includes the following training methodologies as a percentage of the total tuition hours:

- 30% Lectures, Concepts, Role Play
- 70% Workshops & Work Presentations, Techniques, Based on Case Studies & Practical Exercises, Gamification, Software & General Discussions
